

Molecular Biology of the Cell

Editor-in-Chief

Sandra L. Schmid
Scripps Research Institute

Editors

Joan Brugge
Harvard Medical School

Richard O. Hynes
Massachusetts Institute of Technology

Thomas D. Pollard
Yale University

Jean E. Schwarzbauer
Princeton University

Associate Editors

Josephine C. Adams
Cleveland Clinic Foundation

Richard K. Assoian
University of Pennsylvania

Francis A. Barr
Max Planck Institute

Wendy Bickmore
MRC Human Genetics Unit

Kerry S. Bloom
University of North Carolina

Charles Boone
University of Toronto, Canada

Patrick J. Brennwald
University of North Carolina

Jeffrey L. Brodsky
University of Pittsburgh

Marianne Bronner-Fraser
California Institute of Technology

Fred Chang
Columbia University

Jonathan Chernoff
Fox Chase Cancer Center

John L. Cleveland
St. Jude Children's Research Hospital

Orna Cohen-Fix
National Institutes of Health

Stephen Doxsey
University of Massachusetts

David G. Drubin
University of California, Berkeley

Gerard Evan
University of California, San Francisco

Paul Forscher
Yale University

Thomas D. Fox
Cornell University

Reid Gilmore
University of Massachusetts

Mark H. Ginsberg
University of California, San Diego

Benjamin S. Glick
University of Chicago

Jean E. Gruenberg
University of Geneva

J. Silvio Gutkind
National Institutes of Health

Carl-Henrik Heldin
Ludwig Institute for Cancer Research

Erika Holzbaur
University of Pennsylvania

Sandra Lemmon
University of Miami

Daniel J. Lew
Duke University

Adam Linstedt
Carnegie Mellon University

Jennifer Lippincott-Schwartz
National Institutes of Health

Vivek Malhotra
University of California, San Diego

Benjamin Margolis
University of Michigan Medical School

Thomas F.J. Martin
University of Wisconsin

A. Gregory Matera
Case Western Reserve University

Keith E. Mostov
University of California, San Francisco

Sean Munro
MRC Laboratory of Molecular Biology

Akihiko Nakano
RIKEN

Donald D. Newmeyer
La Jolla Institute for Allergy and Immunology

Asma Nusrat
Emory University

M. Bishr Omary
VA Palo Alto Health Care System and Stanford University

Carole Parent
National Institutes of Health

Robert G. Parton
University of Queensland, Australia

Howard Riezman
University of Geneva

Martin A. Schwartz
University of Virginia

Janet M. Shaw
University of Utah

Mark J. Solomon
Yale University

Thomas Sommer
Max Delbrück Center for Molecular Medicine

Tim Stearns
Stanford University

Suresh Subramani
University of California, San Diego

William P. Tansey
Cold Spring Harbor Laboratory

Peter Walter
University of California, San Francisco

Yu-Li Wang
University of Massachusetts Medical School

Karsten Weis
University of California, Berkeley

Jonathan S. Weissman
University of California, San Francisco

Susan R. Wenthe
Vanderbilt University

Marvin Wickens
University of Wisconsin

John York
Duke University

Yixian Zheng
Carnegie Institution

Founding Editors

Erkki Ruoslahti
*Burnham Institute
(Founding Editor, Cell Regulation)*

David Botstein
Princeton University

Keith R. Yamamoto
University of California, San Francisco

ASCB Staff

Executive Director
Joan R. Goldberg

Publications Director
W. Mark Leader

Journal Production Manager
Eric T. Baker

Molecular Biology of the Cell (ISSN 1059-1524) is published monthly by The American Society for Cell Biology, 8120 Woodmont Avenue, Suite 750, Bethesda, MD 20814-2762.

Correspondence: *Molecular Biology of the Cell*, ASCB, 8120 Woodmont Avenue, Suite 750, Bethesda, MD 20814-2762. Email: mbc@ascb.org.

Subscriptions: Institutional subscriptions are available according to a tiered rate structure; please visit www.ascb.org/files/2008_mbc_rates.pdf for additional information. A personal subscription is included as a benefit of membership in the American Society for Cell Biology.

Molecular Biology of the Cell is indexed or abstracted in: Biological Abstracts, BIOSIS Data Base, CAB International, CABS, Chemical Abstracts, Current Contents/Life Sciences, EMBASE, Index Medicus, Medline, and Reference Update.

Molecular Biology of the Cell is available online at www.molbiolcell.org and through PubMed Central at www.pubmedcentral.nih.gov. Free access to all material published in *Molecular Biology of the Cell* is available 2 months after publication at www.molbiolcell.org.
