Getting the Message?
Join the American Society for Cell Biology

Benefits of ASCB Membership Include:

- Page charge discount of 20% for articles published in Molecular Biology of the Cell
- Subscription to Molecular Biology of the Cell
- Subscription to CBE—Life Sciences Education
- Subscription to the ASCB Newsletter
- Subscription discount for other scientific publications
- Listing in the ASCB Directory of Members
- Reduced registration rate and abstract sponsorship privileges for the ASCB Annual Meeting
- Free CV posting on the ASCB Web job board
- Award opportunities
- Reduced registration rate to the ASCB Summer Meetings
- Preferred rates on credit cards and auto insurance, plus discounts on rental cars

To become a member, contact the ASCB

Constitutively active Rac1 (GFP-L61 Rac1, blue) targets to focal adhesions in a mouse embryo fibroblast. Focal adhesions and focal complexes showing Rac1 localization appear fuchsia due to colocalization with antibody-labeled vinculin (red). Phalloidin-labeled F-actin appears green. The activation state of Rac1 regulates its localization to focal adhesions. See the full article by Chang et al. on p. 253 of this issue of MBC. (Image: Fumin Chang and Lew Romer, Department of Anesthesiology and Critical Care Medicine, Johns Hopkins University School of Medicine)

FOR CELL BIOLOGY

T-Shirts
Cell Biology T-shirts are available in white, high-quality, 100% cotton in a variety of sizes for children and adults.

- Jingle Cells
- Divide & Conquer
- Actually, on a Cellular Level, I’m Quite Busy
  (also available in black)
- Celebrate Science!
  (also available in gray)
- Know Thy Cell
  (also available in yellow)
- The Secret of Life is Inside The Cell
  (also available in gray)
- Life is Totally Cellular
- To Thine Own Cell Be True
  (also available in gray)
- Cell la vie!
- Cells are Life: The Rest is Just Detail

$13 ea.
$12.50 each for orders of 2 or more
