MBC Paper of the Year Award

*Molecular Biology of the Cell* is pleased to sponsor the *MBC* Paper of the Year Award. The winner will be the first author, who must be a student or post doctoral fellow at the time of submission of the paper judged to be the best of the year by the *MBC* Editorial Board. The winner will then be a speaker in an appropriate minisymposium at the next ASCB Annual Meeting. The award will pay travel expenses for the winner to attend the Annual Meeting.

**Eligibility:**

First authors who are students or postdocs at the time of submission.

**Prize:**

To be a minisymposium speaker at the ASCB Annual Meeting, with travel expenses and registration fees included.

**Deadlines:**

The first awardee will be chosen from all papers published in the first six issues of 1992 (*MBC* Volume 3, Issues 1–6) and will be featured at the ASCB meeting in Denver, Colorado, November 15–19, 1992.
TRIACSIN C
Acyl-CoA Synthetase Inhibitor

**INTRODUCING TRIACSIN C**, for your biosynthetic and functional studies on lipids and acylated proteins.

**TRIACSIN C** is an important tool for studies on animal growth regulation, fatty acids metabolism, and regulation of metabolic pathways...

**OTHER ENZYME INHIBITORS**

**PROTEIN KINASE INHIBITOR**
- Calphostin C
- Staurosporine
- K-252a
- K-252b
- KT-5720
- KT-5823
- KT-5926

**PROTEIN PHOSPHATASE INHIBITOR**
- Okadalc Acid
- 35-Methyl Okadalc Acid
- Pyrenacetyl Okadate
- Tautomycin

**TYROSINE KINASE INHIBITOR**
- Psi-pectorigenin
- Herbimycin A
- Erbstatin Analog

**PLA2 INHIBITOR**
- Manoalide

**ATPase INHIBITOR**
- Bafilomycin

**Ca^{++} PERMEABILITY**
- Palytoxin
- Maitotoxin
